FIG. 9B is a perspective view of the catheter assembly 100 in a retracted position. The catheter assembly 100 includes a handle 102, a shaft 104, and a catheter 106. The handle 102 is connected to the shaft 104, and the shaft 104 is connected to the catheter 106. The catheter 106 is shown in a retracted position, with the distal end 108 of the catheter 106 being retracted from the shaft 104. The handle 102 is shown in a perspective view, and the shaft 104 and catheter 106 are shown in a perspective view. The handle 102 is connected to the shaft 104, and the shaft 104 is connected to the catheter 106. The catheter 106 is shown in a retracted position, with the distal end 108 of the catheter 106 being retracted from the shaft 104.

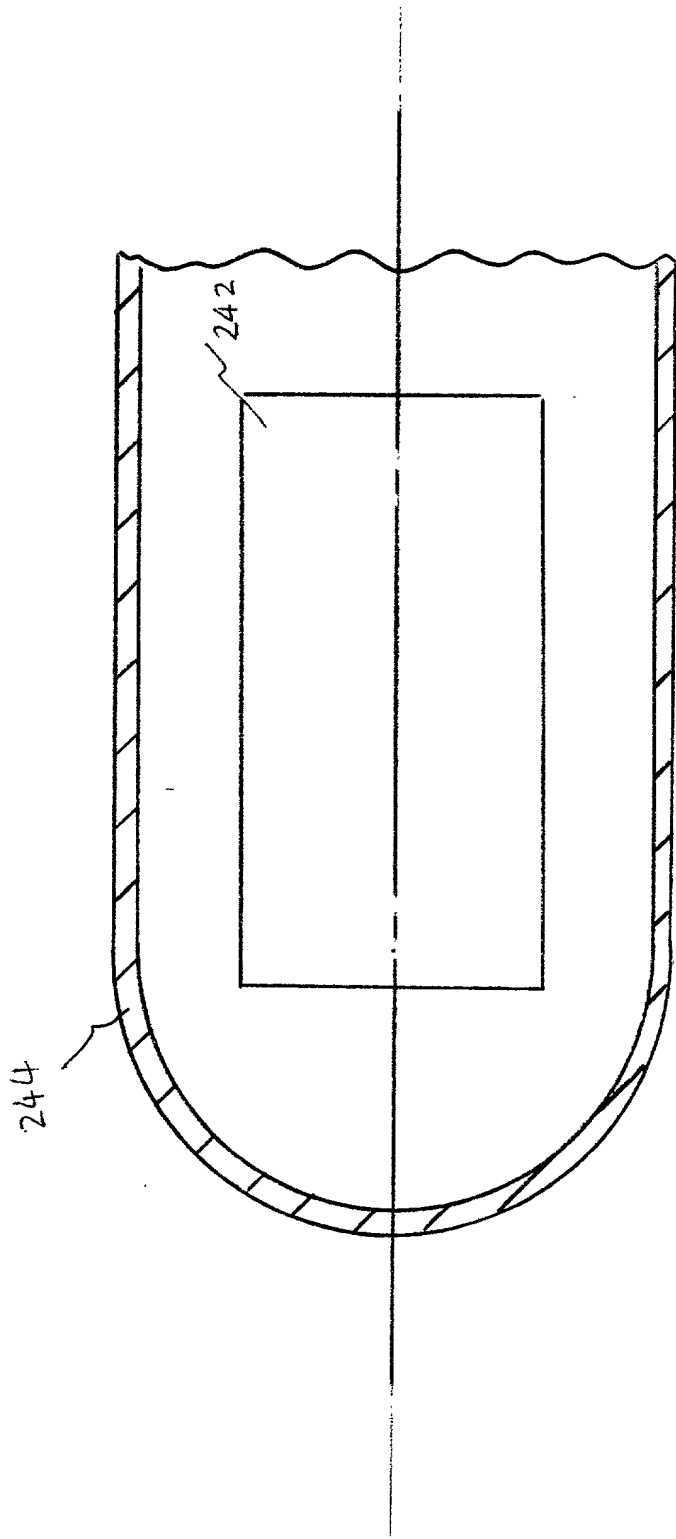

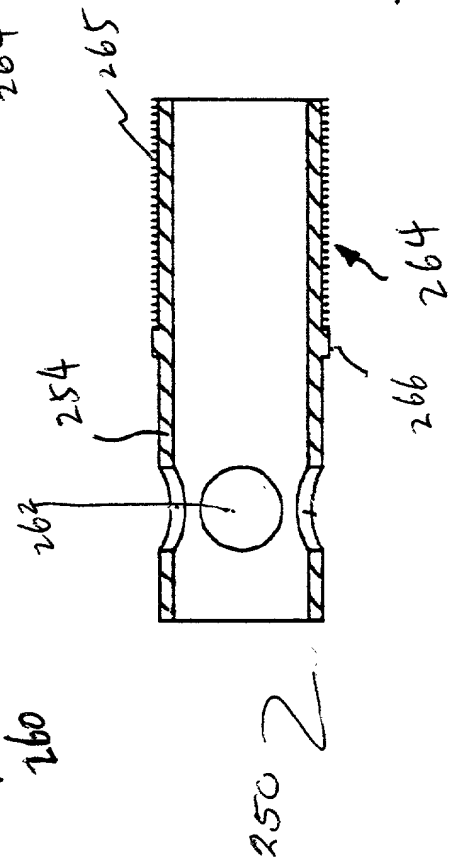

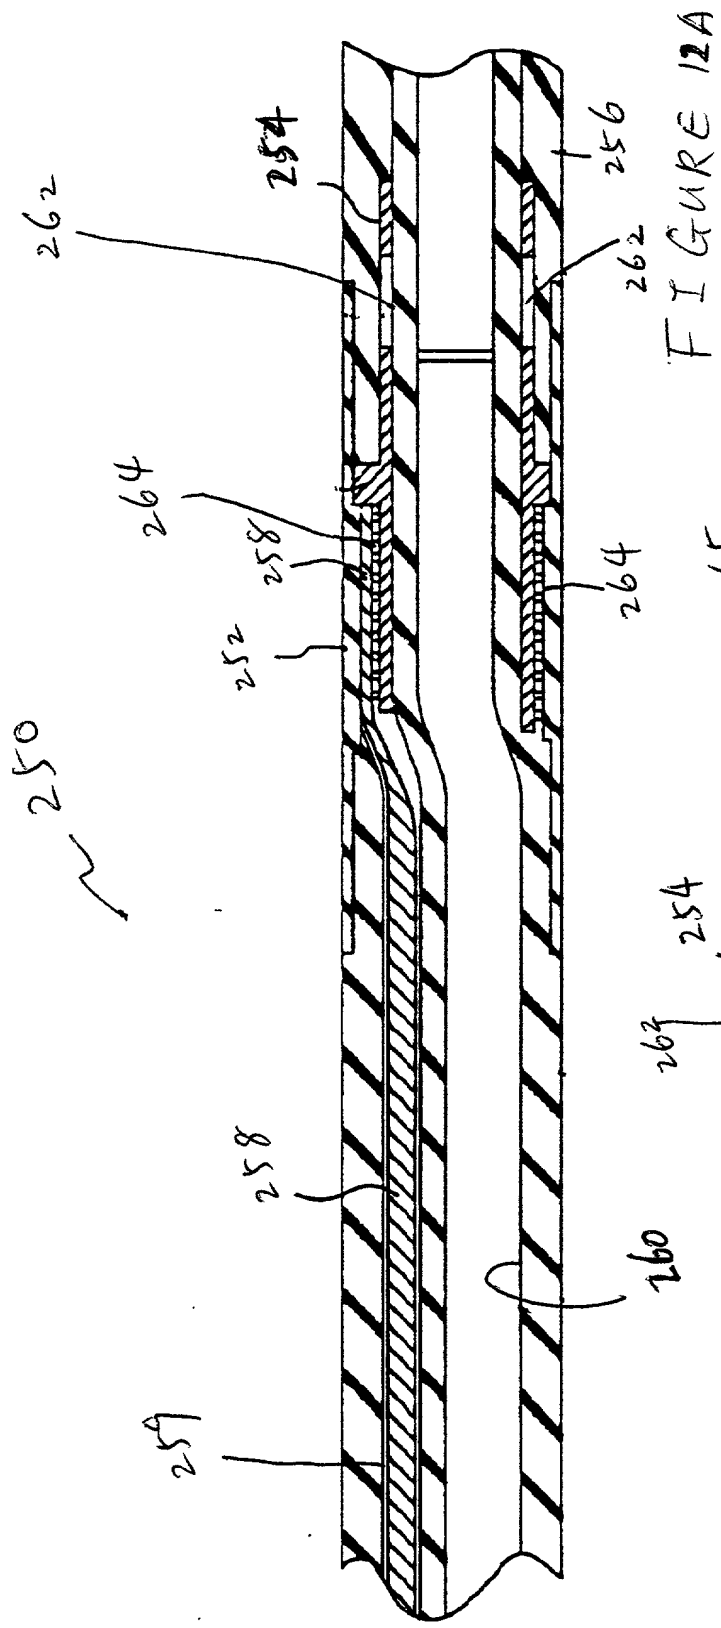

FIGURE 11

FIG. 12A is a cross-sectional view of a device 250 in a first state. The device 250 includes a substrate 259, a first layer 258, a second layer 252, a third layer 254, and a fourth layer 262. The device 250 is shown in a first state where the first layer 258 is in contact with the second layer 252.
